kontaki
DESIGN

Kontaki Design is a Greek company that designs and produces exclusive handcrafted furniture and decorative objects using only the finest materials.

All objects and furniture are designed and manufactured in Greece. Each piece is unique and only a limited number of copies are produced. **Kontaki Design** conceives the decorative object as a work of art which doesn't fail to lose its functional purpose, while at the same time maintaining high quality that passes the test of use and time. That is the Kontaki design philosophy.
