PUBLISHED ON SEPTEMBER 29, 2014 BY DIDIER L.

Kontaki design is a newly established Greek company that exclusively designs and produces handcrafted objects and furniture. All objects and furniture are designed and manufactured in Greece. Each piece is unique and only a limited number of copies are produced.

Born and raised in Athens, Spiros Kontakis was involved with music and sound in his early professional years. After spending a few years in London where he worked as a session guitarist he returned to his greatest love, Design which he studied (painting and furniture design) and so he started over again.

Exhibition in Paris from Oct. the 23rd, 2014 to Jan. the 10th, 2015
